

The ProMixer is a kitchen mixing machine that offers a compact, stylish alternative to traditional machines. With the functionality of a common mixer, offering kneading, beating and whisking facilities, the pro-mixers design layout means it can be produced and retailed at a fraction of the cost of its competitors.

The large rotating blades of the Pro-Mixer are designed and shaped to leave no area of the mixing vessel un-touched, this eliminated the need for a rotating bowl. The tall design allows a large bowl to be used while still offering stability and saving on vital kitchen space.

The simplicity of the detachable mixing blades makes cleaning a piece of cake, and the push down lid is ergonomically designed to make the transfer from the worktop to the sink effortless.

The alternative approach to the design when compared to traditional mixers eliminates the need for a pivoting arm and reduces surface area, meaning less materials, less moving parts, less packaging and less disposal volume, all factors that help reduce impact on the environment as well as cost.

The lid of the mixer houses the motor, yet the power source is in the base. These are linked via a contact point at the top of the spine which runs up the back of the unit, which also helps locate the mixing vessel (removable for cleaning).

A 2 speed function is offered via 2 push buttons on the lid section, slow and fast speeds are selected depending on use.

## Specification:

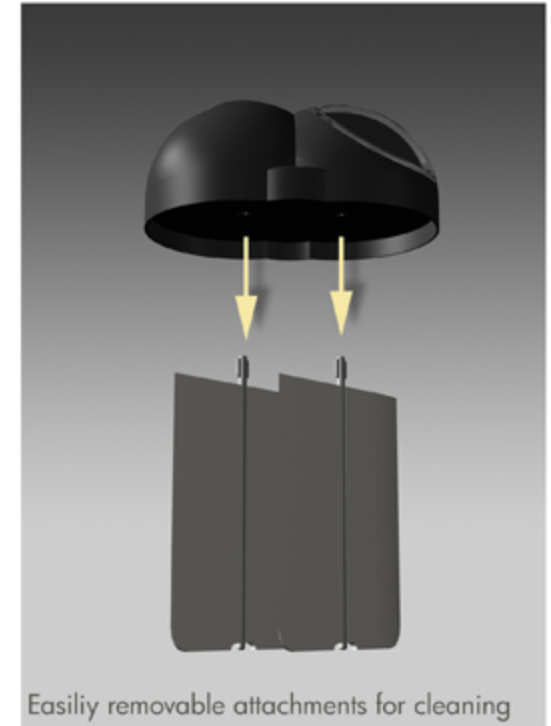

- Colour: Charcoal
- Body Material: Polyethylene
- Speeds : 2 speed Variable
- Electronic Speed Control: Yes
- Dough Tool: Yes
- Whisk : Yes
- Mixer : Yes
- Vessel Material: HDPE
- Total Bowl Capacity: 6.5 Litres
- Dishwasher Safe Parts: Yes
- Size (cm): 23L x 16W x 31H
- Weight: 4.5kg
- Wattage: 500W

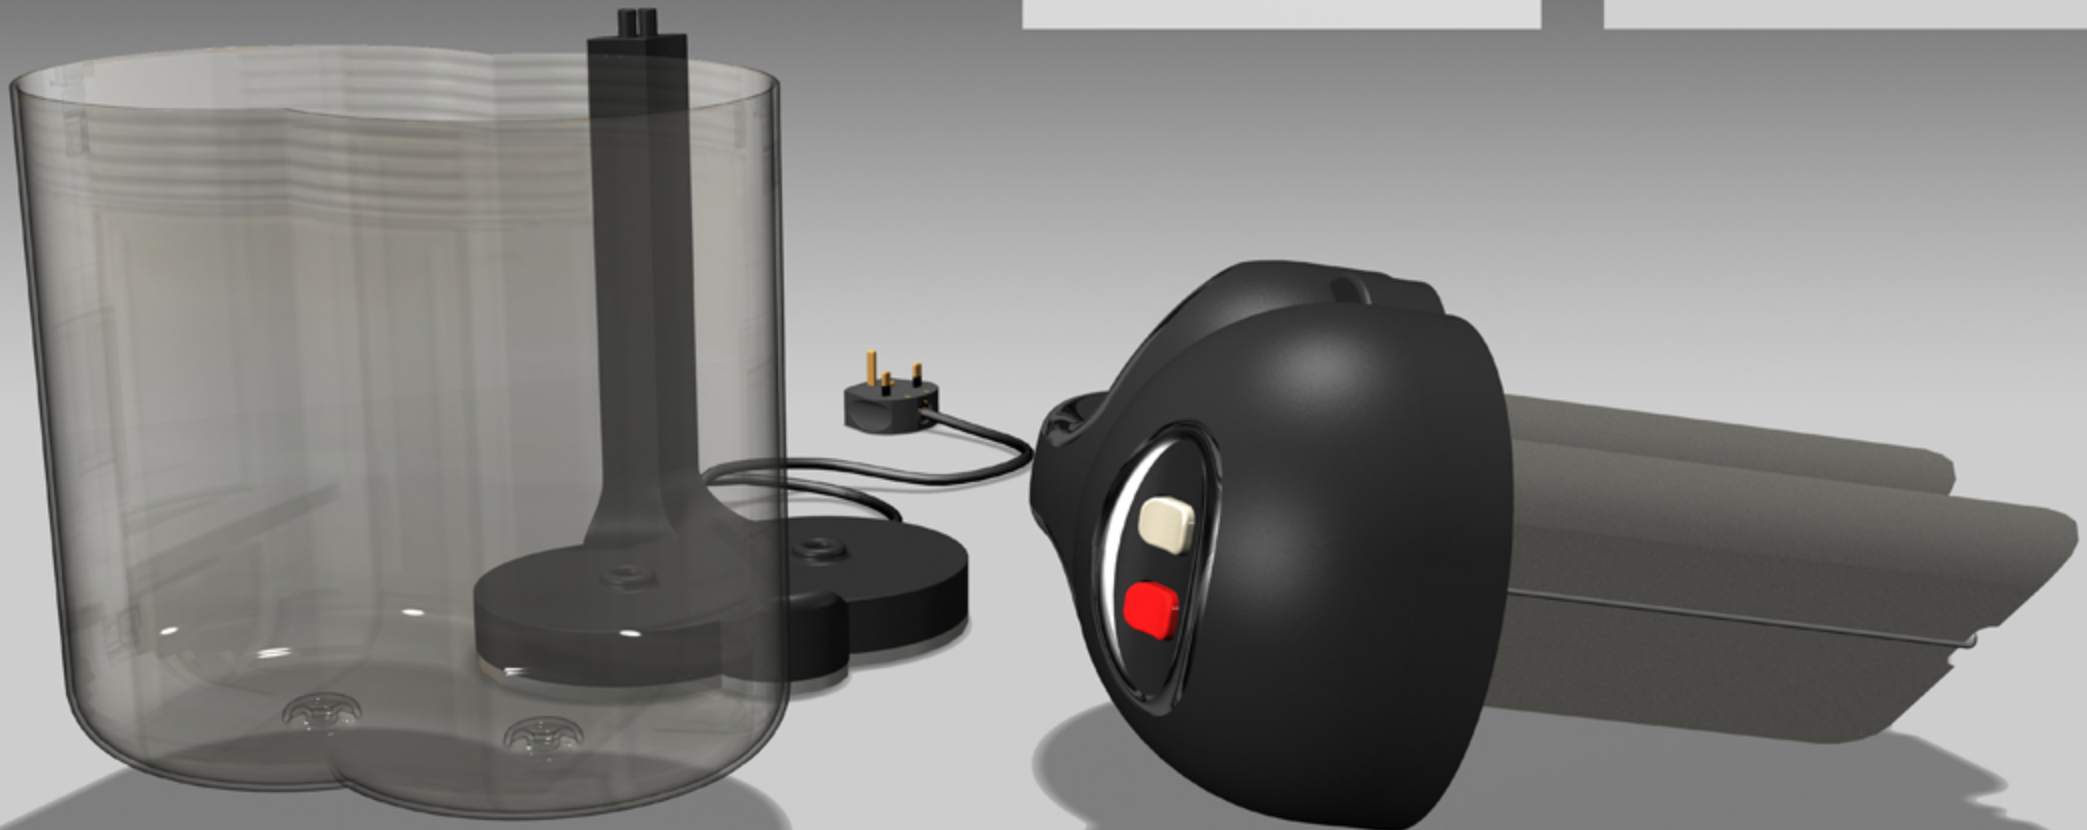

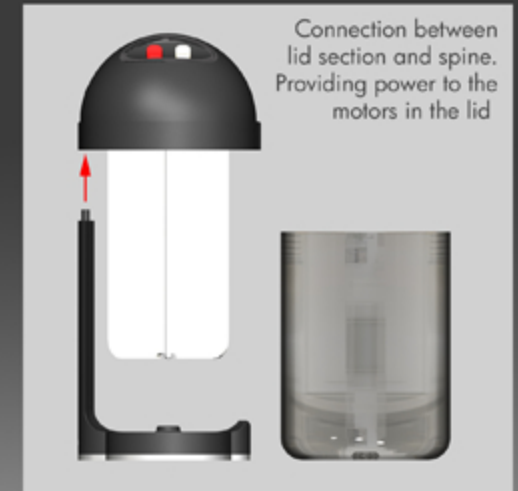

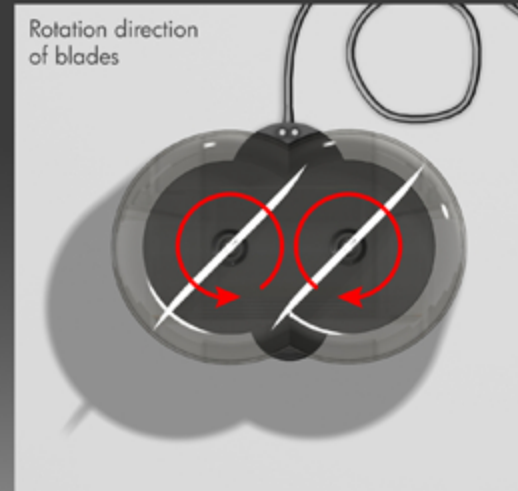

Dough mixer and whisk attachments supplied with the product

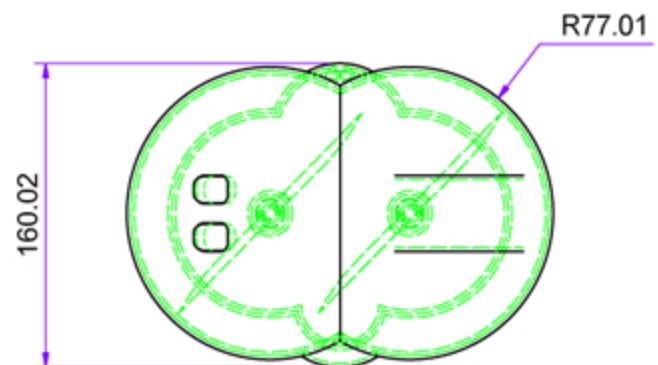

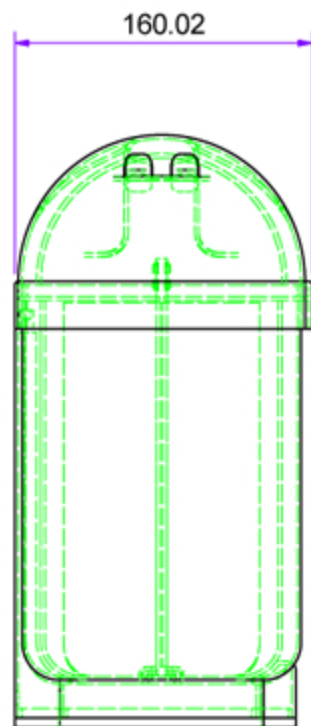

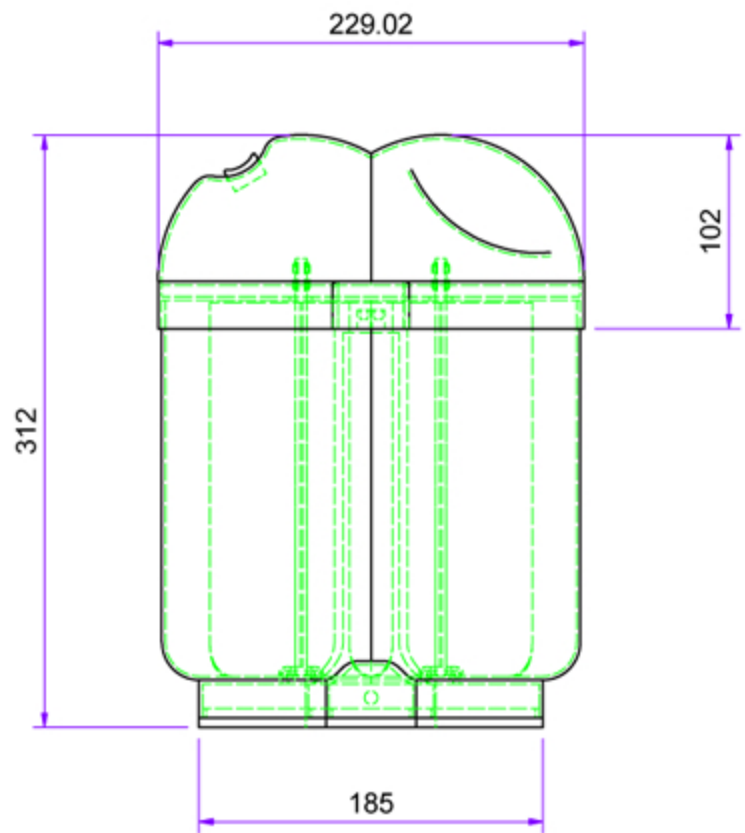

Lid section is ergonomically designed for quick removal from the mixing vessel. The rim of the lid fits snugly over the mixing vessel with no need for clips or locks.

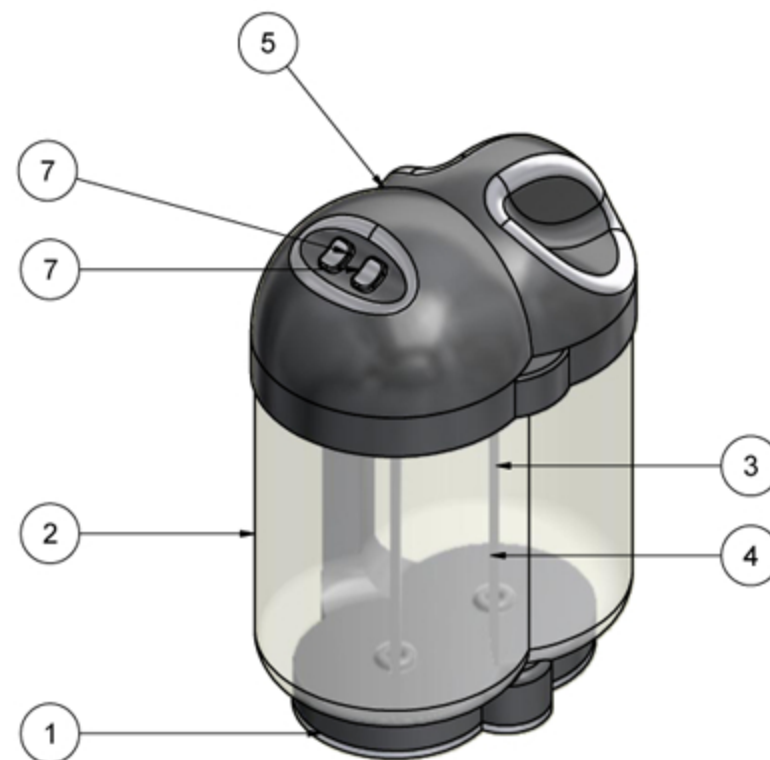

# ProMixer

The product consists of 3 main parts -  
The base, the lid and the mixing vessel.

Parts List		
ITEM	QTY	PART NUMBER
1	1	base
2	1	bowl
3	2	rod
4	4	blade
5	1	lid
6	1	base-bottom
7	2	button
